Your payment specialist

Dynamic Currency Conversion

In your business you probably frequently deal with foreign tourists hailing from non-euro countries. Are they a significant source of your turnover? Would you like to make paying more attractive to them? We have a solution. PaySquare's Dynamic Currency Conversion (DCC) is available to all businesses that accept MasterCard and Visa transactions via PaySquare. This service enables foreign customers to pay with their credit card in their own familiar currency. And since payments are made without any exchange rate differences, that means no more surprises for them when they return home.

Paying in their own currency

It makes perfect sense: deduction of the actual price paid. Previously, however, foreign customers had to wait until the end of the month to see how much was deducted from their account. Currency conversion often had quite an impact on the price paid. With that in mind, customers have tended to exercise more restraint with credit card purchases. But with DCC, cardholders immediately see how much they are spending. Corporate credit card holders can therefore claim their actual expenses straightaway upon returning home. In brief, it makes shopping easier. And you receive the amount paid from us in euros as usual.

Financial benefits for you

Not only your customers benefit from this extra service. After all, you receive an attractive commission on every non-euro transaction made with your business using a MasterCard or Visa Card via DCC. Moreover, Merchant Services Online gives you instant access to information on transactions and payments received.

Easy for you and your foreign customers

In brief, are you a hotel/restaurant owner or jeweller or do you run a duty free shop, car hire agency or other business serving many tourists from non-euro countries? Are their MasterCard and Visa payments a significant source of your turnover? In that case, you can make your customers' payment process much easier while boosting your own turnover and profit by taking advantage of our service. Would you like to know if you have sufficient non-euro turnover in order to benefit from DCC acceptance? Please contact our Merchant Services department, telephone number +31 (0)30 283 73 33. Building up a foreign clientele has never been this easy!

About PaySquare

Years of experience in international payments make us a reliable and expert business partner upon whom you can count. We are up to date with the latest changes and are constantly developing new products and services. Our advice is naturally tailored to your specific situation to keep your customers benefiting from premium services as well.

Further information?

To start benefiting from DCC or to request further information, please call our Merchant Services Department on +31 (0)30 283 61 77 Monday to Friday between 8.30 a.m. and 5.30 p.m. Or visit our website at www.paysquare.nl. Here you will also find a list of all currencies that can be accepted when using the conversion system.
